

There are no regulations implementing this rule.

**Geologist - Licensure by Reciprocity:** Any person holding a valid certificate of registration, licensure or certification for the practice of geology or a recognized specialty of geology, issued under the laws of any state or territory or possession of the United States, or any foreign country, **shall be eligible for registration, without examination.**

Miss. Code. Ann. § 73-63-39

The board may issue a certificate of registration to any person if:

he has made application

he has provided proof of registration, licensure or certification

the other state's requirements for licensure, registration or certification **are determined by the Board to be substantially equivalent** to Mississippi's requirements
